MYCOLOGIST

The International Journal of General Mycology

CUMULATIVE INDEX

1987 – 1999; Volumes 1 – 13

Compiled by
D. N. PEGLER

Aa, H. van der, Confluent basidiocarps **11:**80
Abate, D., *Agaricus campestris* in upland Ethiopia **13**:28
_, Cultivation of oyster mushroom in traditional brick pots **9:**179
Abdullah, N., Iqbal, M. & Zafar, S. I., Potential of immobilized fungi as viable inoculum **9:**168
Abnormal internal rust sori during last 100 years, Shaw, D. E. **6:**23
_ *Laccaria laccata* basidiocarp, Ramel, G., McTieran, K, & Webster, J. **12:**136
_ wood blewit basidiocarps, Ramel. G. & Webster, J. **9:**105
Actinomycetes, the ray fungi, Williams, S. T. **4:**110
Active basidium, Corner, E. J. H. **5:**69
_ liberation of reproductive units in terrestrial fungi,Ingold, C. T. **13:** 113
Accumulation curve for agarics and boleti from Caledonian pinewood, Species, Tofts, R. J. & Orton, P.D. **12:**98
Addnall, *(Book review) Wild mushrooms, how to find, identify and cook them* **3:**91
Aeciospore discharge, demonstrating, Webster, J. & Davey, R. A. **1:**119
Aero-aquatic *Cancellidium applanatum* in Queensland, Shaw, D. E. **8:**162
African equatorial mushrooms are abundant fruiters, Holden, M. **9:**185
Agarics, Fan vaulting and, Ingold, C. T. **7:**58
Agarics and boleti from Caledonian pinewood, Species accumulation curve for, Tofts, R. J. & Orton, P. D. **12:**98
Agaricus recovery program ?, what is, Kerrigan, R. W. **5:**22
Agaricus campestris in upland Ethiopia, Abate, D. **13**:28
Agarolytic activity of *Fuligo septica*, Murugan, M., Ali, N. M., Skaria, C. S. & Kalyundersundaram **10:**21
Agriculture ?, Is biological control the answer for sustainable, Powell, K. **7:**75
Agro, L. A., Bell, A & Shattock, R. C., *Puccinia smyrnii* and *P. vincae*: a microscopical study of two autoecious rusts **13:** 107
Agrocybe conicoides **1:**122
Ahmed, Ed., *(Book review) Oxidative stress and antioxidant defenses in biology* **11:**44
AIDS patients, Fungal infection in, Campbell, C. K. & White, G. C. **3:**7
Ainsworth, M., *Phellinus cavicola* and British records of *P. umbrinellus*, **13:**56
_, *Phellinus umbrinellus* **10:**36
_ & Henrici, A., *Corticium quercicola* **10:**157
Ainsworth, G. C., *(Book review) Brief biographies of British mycologists* **11:**190
_, British Mycologists
Berkeley, M. J. **1:**126
Buller, A. H. R. **2:**83
Butler, E. J. **7:** 44
Cooke, A. S. **4:**192
Grove, W. B. **2:**168
Hastings, S. **5:**149
Lister, A. & G. **7:**134
Mason, E. **7:**169
Massee, G. E. **6:**13
Pearson, A. A. **6:**130
Ramsbottom, J. **8:**40
Rea, C. **3:**145
Samson, K. **6:**77
Smith, W. G. **4:**32
Sowerby, J. **2:**125
Stevenson, J. **3:**45
Swanton, E. W. **1:**172
Wakefield, E. M. **2:**33
Ward, H. M. **7:**89
_, *(Book review) Introduction to history of medical mycology* **4:** 96
Airborne fungal spores and respiratory diseases, Isaac, S. **10:**31
Aitchison & Hawksworth, *(Book review) IMI, retrospect and prospect* **8:**96
Albugo on *Senecio*, Preece, T. F. **1:**71
Al-Doory & Ramsey, S., *(Book review) Moulds and health* **4:**141
Alexander, R., Urban tar-spot (Correspondence) **2:**4
Alexopoulos, Mims & Blackwell, *(Book review) Introductory mycology* **10:**140
Alfred Clarke (1848 -1925), Watling, R. & Sykes, M. **6:**197
All washed up, Watling, R. & Turnbull, E. **10:**86
Allen, *(Book review) Ecology of mycorrhizae* **6:**141
Allen, S. J. & Young, A. M., *Coprinus cinereus* with cotton module rot **7:**73
Allergic reactions to *Laetiporus sulphureus*, Evidence of, Jordan, M. **9:**158
Allsopp, Hawksworth & Colwell, *(Book review) Microbial diversity and ecosystem function* **11:**95
_ & Seal, *(Book review) Introduction to biodeterioration* **2:**82
Ally Pally fungi, Lipson, M. **3:**123
Amanita in Europe and North America, Tulloss, R. E. (Correspondence) **11:**134
_ _ Hampshire, Notes on, Mattock, G. **9:**15
_ _ _ and Isle of Wight, Further notes on, Mattock, G. **12:**83
_ *muscaria*, Fungal madness, from dream to nightmare, Dauguet, J. C. & Rioult, J. P. **7:**195
_ _ takes on a trusty new role, Hadley, G. **10:**136
_ *zambiana*, (Correspondence) Pearce, G. D. **13:**69
Amateur mycologists, Survey of Marriott, J. V. R. **7:**49
Amateur, surveys in NW England, Encouraging the, Cook, R. **6:**162
Amazon-ingly useful fungi, Ellison, C. A. & Evans, H. C. **10:**11
American in Belgian swimming pool, Vellinga, E. C. **13:**50
Amijee, F., VA mycorrhizas **3:**176
_ & Stribley, P., VA fungi **1:**20
Ammirati, Traquair & Horgen, *(Book review) Poisonous mushrooms of Canada* **1:**72
Amos & Amos, *(Book review) Molecules of the cytoskeleton* **8:**80
Amurca, Verney, P. (Correspondence) **7:**84
Amylase secretion by *Aspergillus oryzae*, Teaching techniques for mycology, Weber, R. W. S., Pitt, D. & Webster, J. **12:**8
Amylocarpus encephaloides, marine fungus new to Ireland, Crumlish, B, & Curran, P. **8:**83
Anagrams, Cooper, P. & Wons, A. **5:**177
Ancient China, mycology **1:**59
Ancient polar ice, Revival and characterization of fungi from, Ma, L., Catranis, C. M., Starmer, W. T. & Rogers, S. O. **13:**70
Anderson, R., *Ciboria alni* **10:**155
Anderson & Olsson, Eds, *(Book review) Lake Gardsjon, an acid forest lake* **2:**25
Antagonistic properties, application of fungi, Hussain, S.& Lane, S. D. **6:**29
Antarctica, *Rickenella mellea* in, Calonge, F. D. & Pegler, D. N. **6:**174
Antheridiol, Discovery of fungal sex hormones II., Carlile, M. J. **10:**113
Anthracobia subatra, new to Britain, with key to species, Yao, Y. J., Spooner, B. M. & Legon, N. W. **12:**32
Antimicrobial activity of *Dacrymyces stillatus*, Fenwick, G. A. **6:**192
Antimycotic ointments, Fletcher, H. J. & Chapman, D. G.**5:**155
Antrodia pseudosinuosa sp. nov., Henrici, A. & Ryvarden, L. **11:**152
Aphid infection by *Erynia neoaphidis*, SEM, Lopez-Llorca, L. V. **7:**166
Aquarium myxomycete, *Didymium nigripes,* Kappel, T. & Anken, R. H. **6:**106
Are equatorial mushrooms reluctant fruiters, Hilton, R. **9:**154
Argentina, First record of *Astraeus hygrometricus* from, Nouhra, E. R. & Dominguez de Toledo, L. **12:**112
_ and Europe, Yeasts and leguminous trees in, Spencer, D. M., Spencer, J. F. T., Garro, O. & Fengler, E. **10:**126
Armillaria carpophores, in vitro, Development of, Intini, M. G. **7:**18

_ in Italy, comments on, Intini, M. G. **4:**115
_ *bulbosa*, induction of basidiocarps in, Fox, R. T. V. & Popoola, T. O. S. **4:**70
Arora, Frisvad & Bridge, ed. *(Book review) Chemical fungal taxonomy,* **13:**187
Arum maculatum in Shropshire, smut?, Recent finds in leaves of, Preece, T. F.,Mordue, E. M. & Hick, A. J. **8:**68
Ascocoryne sarcoides, *Syzygospora sorana*, parasitizing, Roberts, P. J. **7:**62
Ascomycete classification, What is happening in, Minter, D. W. **2:**55
_ systematics, workshop on, Hawksworth, D. L. & Mouchacca, J. **8:**41
Ascomycetes at Cuyabeno, Ecuador, Physiological ecology of Xylariaceae and other, Schoeman, M. **10:**118
_, illustrated key to British underground, Minter, D. W. & Zhang, B. C. **3:**61
Ascospores, Observations on germination of *Sarcoscypha austriaca,* Fenwick, G. A. **8:**124
Aseroe rubra at Oxshott, Spooner, B. M. **8:**153
Asia, Ethno-myco-medicines from central, Rai, B. K., Ayachi. S. S. & Rai, A. **7:**192
_, Macrofungi in oil palm plantations of south east, Treu, R. **12:10**
Asian-Pacific mycological conference on biodiversity & biotechnology, 1988, Jones, E. G. **13:**63
Aspergillus oryzae, Teaching techniques for mycology, Amylase secretion by, Weber, R. W. S., Pitt, D. & Webster, J. **12:**8
Astraeus hygrometricus, an uncommon earthstar, Brand, A. W. & Finlay, J. **10:**109
_ _ from Argentina, First record of, Nouhra, E. R. & Dominguez de Toledo, L. **12:**112
Athlete's foot, Foot rot of people, Isaac, S. **7:**92
Atlas & Bartha, *(Book review) Microbial ecology, fundamentals and applications* **9:**140
Aureobasidium pullulans on lignin breakdown products at weathered wood surfaces, Growth of, Schoeman, M. & Dickinson, D. **11:**168
Auricularia in north east England, Note on occurrence of, Fenwick, G. A. **12:**30
_ *auricula-judae* on *Quercus*, Webb, J. **4:**148
Australia, Developing mycological awareness in, Kile, G. A. & Grgurinovic, C. A. **9:**29
_, *Hypholoma tuberosum* in, Priest, M. J. & Simpson, J. A. **6:**11
_, Edible and poisonous fungi in southern, Cole, M. **8:**35
Australian Systematic Botany, journal of scientific research (Book review) **3:**41
Austrian Mycological Society, History and activities of, Krisai-Greilhuber , I & Moser, M. **13:**102
Autolysis in fungal hyphae, S. Isaac **10:**158
Autumn foray, Lewis Pass, New Zealand,1990, Bell, A. **5:**82
Ayres & Boddy, *(Book review) Water, fungi and plants)* **1:**72

Bailey, A. G., Silver leaf **3:**18
Peach leaf curl **2:**11
Potato blight **2:**122
Potato gangrene **3:**83
Rose rust **2:**70
White blister **3:**146
Baker, T., Fungal styptics **3:**19
